

VARUN RAVAL

Walldorf / Heidelberg / Mannheim / St. Leon-Rot, Germany (open to relocation for Berlin / Potsdam)

Phone: (+49) 0172 754 6835 **Email:** raval.varun@stud.hs-fresenius.de

LinkedIn: [linkedin.com/in/varunraval](https://www.linkedin.com/in/varunraval) **GitHub:** github.com/ravalvarun-SAP

Availability: Full-time 6-month internship from April 2026; willing to work on-site in Berlin or Potsdam at least 3 days/week.

Languages: English (fluent), German (B1 – actively improving towards B2/TestDaF) **Work authorization:** Eligible to work as student in Germany

PROFILE / TARGET FOCUS

M.Sc. SAP Engineering & Analytics student (2nd semester, SAP-aligned curriculum) with 1.5+ years' experience at SAP Walldorf in Services Sales, Non-Commercial Licensing and Transformation Advisory, where I supported transformation initiatives, regional stakeholders and high-quality communication assets. My background spans business process management, change management, stakeholder communication, analytics and UX design (M.Des. Communication Design), helping me connect IT topics with human and organizational needs.

I am building a focused profile in SAP BTP-centric analytics and automation, combining SAP HANA Cloud, SAP Analytics Cloud (SAC), SAP Datasphere, SAP Data Intelligence concepts and Python/SQL to deliver fact-based insights and automated data flows for leadership steering, including first AI-style prototypes using SAC time-series forecasting and Python-based experiments. Currently I am designing a RISE-style retail analytics pipeline on SAP BTP and documenting my SAC work in a portfolio, and I am now seeking an SAP BTP Project Management Office iXp internship where I can contribute to data insights, dashboard design, workflow automation and AI experimentation for BTP leadership.

KEY COMPETENCIES

Data Insights & Analytics • SAP BTP Analytics (HANA + SAC) • Data Integration & Modeling • Pipeline Automation (Python, SAP Data Intelligence concepts) • KPI Design & Management Dashboards • Business Transformation & Change Context • Business Process Analysis • Project Management Support (Jira, planning, reporting) • Stakeholder Communication • Cross-Functional Collaboration • Continuous Improvement Mindset • Professional Content Creation & Structured Documentation

EDUCATION

Master of Science – SAP Engineering and Analytics Oct 2025 – Sep 2027 (Currently Enrolled)
Hochschule Fresenius, Heidelberg, Germany (SAP-aligned program)

Master of Design – Communication Design 2015 – 2018
MIT Institute of Design, Pune, India

Bachelor of Engineering – Computer Engineering 2010 – 2013
Ganpat University, India

SAP & TECHNICAL SKILLS (FOCUS AREAS)

Business & Transformation Context: Understanding of SAP ECC to S/4HANA transformation and RISE with SAP context, and how IT strategy, processes and stakeholder behaviour connect; experience from Transformation Advisory Center MEE (IX Studio) and academic research on migration and UX adoption.

Analytics & Data: SAP Analytics Cloud (SAC) for multi-page stories, KPI dashboards, drilldowns, filters and forecast views; data profiling and validation across multiple dimensions and regions; SAP HANA Cloud for table design and querying; Python (pandas, NumPy) for data cleaning, type conversion and automation; SQL for querying and checks.

Project & Collaboration: Creation of stakeholder-ready content (presentations, enablement decks, documentation); agile collaboration with Jira in SAP teams; structured project planning via simple

project plans, status views and task breakdowns; cross-functional communication with Services Sales, Licensing and Advisory units.

SAP & Technical Foundation (supporting): SAP S/4HANA, SAP BTP, SAP Analytics Cloud, SAP Fiori/UI5; basic ABAP (RAP, CDS, AMDP) from S/4HANA ABAP/CA training; JavaScript (ES6+), TypeScript; HTML5, CSS3; Git/GitHub, Eclipse ADT, SAP Business Application Studio, SAP Web IDE, VS Code; Jupyter Notebook; MS Office; Adobe Creative Suite, Figma.

PROJECTS (MOST RELEVANT)

RISE-Style Retail Analytics End-to-End Pipeline (SAP BTP)

Feb 2026 – Ongoing

SAP BTP (HANA Cloud, SAC) + Python

Designed an end-to-end RISE-style retail analytics blueprint on SAP BTP using SAP Signavio for process modelling, SAP Data Intelligence for orchestration, SAP HANA Cloud for storage/transformation/modelling and SAP Analytics Cloud for management dashboards, based on a “1000 Sales Records” dataset plus a side inventory/targets dataset. Provisioned a HANA Cloud instance (hana-free), created the SALES_1000 table with 14 business attributes and imported 1,000 rows after fixing date formats via a Python/pandas script. Structured the initiative into clearly defined phases (environment setup, data foundation, modelling, SAC stories) with a simple project plan and status view to track progress and next steps, and used this project as a sandbox to prototype AI-style forecasting and automation ideas.

SAC – End-to-End Sales Analytics Product

Jan 2026

SAP Analytics Cloud

Built a multi-page SAC story on 1,000+ sales records with executive KPIs and drilldowns by region, product and sales channel (online/offline). Designed overview, profitability and drilldown views and performed data profiling on 14 dimensions across 7 regions to ensure completeness and zero-error reporting. Implemented linked analysis and filters to reduce time-to-insight for managers and support data-driven commercial decisions, and applied SAC time-series forecasting on revenue as a simple AI-style feature to demonstrate how automated predictions can support management steering.

Retail Sales Data Cleaning Automation Pipeline

Sep 2024 – Nov 2024

Python, Jupyter Notebook, pandas

Developed an automated Python pipeline to clean and validate messy retail sales datasets, including type checks, missing value handling, duplicate removal and KPI recalculation with logging. Created test datasets and compared outputs against expected results to verify transformations and provide analysis-ready tables for BI tools.

SAP UI5 – Salary & HR Management and Data Visualization

Oct 2025 – Present

SAP UI5, JavaScript & Fiori Elements | github.com/ravalvarun-SAP

Developing SAP UI5 applications following Fiori 2.0 concepts for salary management, time tracking and HR analytics dashboards. Consumed OData services from SAP S/4HANA and focused on clear UX, input validation and responsive layouts, supporting reliable HR reporting and visualization.

WORK EXPERIENCE – SAP (WALLDORF, GERMANY)

Communication & Production Specialist

Oct 2024 – Mar 2025

SAP – Transformation Advisory Center MEE @ Immersive Experience Studio (IX Studio)

Supported transformation advisory sessions for the Middle and Eastern Europe region by preparing digital assets and communication materials for client-facing projects. Coordinated feedback with advisory leads and technical teams, created simple project plans and status reports for key engagements, and documented decisions so that content could be reused consistently across sessions.

Digital Assets Curator and Communication Expert

Jun 2024 – Oct 2024

SAP – Non-Commercial Licensing

Curated and managed digital assets and licensing information for SAP communication projects, ensured compliance with non-commercial licensing and IP guidelines and streamlined asset management workflows for internal stakeholders.

Content and Communication Expert

Aug 2023 – Jun 2024

SAP – Demand Management, Services Sales MEE @ MME Services Sales DemGen

Created and maintained content for Services Sales initiatives across Middle and Eastern Europe, supported demand generation activities and collaborated with sales teams using Jira in agile sprints for planning and tracking.

RESEARCH PAPERS (ACADEMIC)

"SAP Fiori 2.0 and SAPUI5: Enhancing Enterprise User Experience"

Jan 2026

Hochschule Fresenius | Master's Research Work

Analysed SAP's UX strategy, Fiori 2.0 design principles and SAPUI5 architecture, connecting UX improvements to user productivity, adoption and perceived quality in enterprise environments.

"Migration from SAP ECC to SAP S/4HANA: Business Perspectives and Case Studies"

Jan 2026

Hochschule Fresenius | Master's Research Work

Investigated business drivers, risk mitigation and change management aspects of ECC-to-S/4HANA migrations and related them to customer advisory work and the intelligent enterprise vision.

CERTIFICATIONS / TRAINING

S/4HANA ABAP/CA Training

June 2025

Completed intensive training on S/4HANA ABAP, including RAP, CDS and AMDP, gaining proficiency with ABAP Development Tools (ADT) in Eclipse and understanding modern S/4HANA extension patterns.

SAP Analytics Cloud (SAC)

Project-based

Proficiency demonstrated through an end-to-end SAC sales analytics product and portfolio documentation, including KPIs, drilldowns and forecasting.
