

VARUN RAVAL

Walldorf / Heidelberg / Mannheim / St. Leon-Rot, Germany (open to hybrid)

Phone: (+49) 01727546835

Email: raval.varun@stud.hs-fresenius.de

LinkedIn: linkedin.com/in/varunraval | **GitHub:** github.com/ravalvarun-SAP

Availability: 20 hours/week (during semester), full-time during breaks | **Work authorization:** Eligible to work as student in Germany

PROFILE / TARGET FOCUS

M.Sc. SAP Engineering & Analytics student with 1.5+ years' experience at SAP Walldorf. Building a focused profile in SAP Datasphere + SAP Data Intelligence (DI) for data integration, cleaning, cataloging, and modeling, combined with SAP Analytics Cloud (SAC) for executive analytics and planning/forecast views and KPI-driven insights. Also building interest and capability in SAP Signavio, combining data-driven thinking with process context to support enterprise decision-making and transformation initiatives. I have experience creating professional, stakeholder-ready content and documentation.

KEY COMPETENCIES

Data Integration & Modeling • Enterprise Analytics • Process Transformation Context • ERP Implementation • Web Development (JavaScript, SAP UI5) • Project Management (Agile) • Cross-Functional Communication • Problem-Solving • Technical Documentation • Business Process Optimization • Code Review • Debugging • Professional Content Creation

EDUCATION

Master of Science – SAP Engineering and Analytics	Oct 2025 – Sep 2027 (Currently Enrolled)
Hochschule Fresenius	Heidelberg, Germany
Master of Design – Communication Design	2015 – 2018
MIT Institute of Design	Pune, India
Bachelor of Engineering – Computer Engineering	2010 – 2013
Ganpat University	India

SAP & DATA SKILLS (FOCUS AREAS)

SAP Datasphere: Data integration and modeling (integration, cleaning, cataloging, modeling); enterprise-ready data management lifecycle and semantic layer construction.

SAP Data Intelligence (DI): Pipeline-oriented mindset for data integration and automation; building skills toward repeatable, monitored data pipelines and workflow automation.

SAP Analytics Cloud (SAC): Story design, executive KPI dashboards, drilldowns, interactive filtering/linked analysis, calculated measures; planning/forecast-oriented views and persona-driven analytics.

SAP Signavio: Building profile toward process transformation context for analytics (process-to-insight alignment, stakeholder communication, structured documentation for enterprise decision-making).

Supporting SAP / Technical Skills: SAP S/4HANA, SAP BTP, SAP UI5/Fiori, OData concepts, REST concepts, ABAP (RAP, CDS, AMDP), SAP HANA Database; JavaScript (ES6+), TypeScript, Python, SQL; HTML5, CSS3; basic Java; Git/GitHub, Eclipse ADT, SAP Business Application Studio, SAP Web IDE, VS Code, Chrome DevTools; Jira, SharePoint, MS Office Suite, Power BI/Tableau (supporting), Adobe Creative Suite, Figma; Agile/Scrum, Kanban, Business Process Analysis, Technical Documentation.

PROJECTS (MOST RELEVANT)

SAC – End-to-End Sales Analytics Product	Jan 2026
SAP Analytics Cloud	
– Built a 3-page interactive analytics product in SAP Analytics Cloud transforming 1,000+ sales records into executive KPIs and operational drilldowns.	
– Implemented calculated measures (Profit Margin % and cost ratios) and Linked Analysis to filter the entire suite by region/product with one click.	

- Performed data profiling on 14 dimensional fields across 7 global regions; ensured 100% data completeness and zero-error reporting for stakeholders.
- Created self-service capabilities with interactive filters for Item Type and Sales Channel (Online/Offline), reducing time-to-insight for regional managers.
- (Curriculum note) Built an SAC interactive sales analytics dashboard with forecast view supporting region/product/channel/country drilldowns for faster, data-driven commercial decisions.

Automated Salary & HR Management Web Application

Oct 2025 – Present

SAP UI5, JavaScript & Fiori Elements | github.com/ravalvarun-SAP

- Developing employee salary management web application using SAP UI5 and Fiori design principles.
- Implemented time tracking system, salary calculation engine with overtime computation.
- Integrated benefits management (vacation days, provident fund, health insurance deductions).
- Developed advance payment tracking module with automatic deduction schedules.
- Created real-time dashboards using SAP UI5 charts for earnings and deductions.
- Implemented error handling, input validation, and responsive design.
- Used Git for version control with feature branching workflow.
- Technologies: SAP UI5, JavaScript (ES6+), OData services, MVC architecture, data binding, role-based access control.

SAP UI5, OData & Data Visualization

Oct 2025 – Present

- Designed SAP UI5 interfaces implementing SAP Fiori 2.0 concepts.
- Consumed OData services to build interactive views with real-time business data from SAP S/4HANA.
- Utilized data visualization patterns and charting libraries for dashboards.
- Implemented data filtering, sorting, and aggregation features.

WORK EXPERIENCE – SAP (WALLDORF, GERMANY)

Communication & Production Specialist

Oct 2024 – Mar 2025

SAP – Transformation Advisory Center MEE @ Immersive Experience Studio (IX Studio) Walldorf, Germany

- Delivered SAP transformation advisory services for Middle and Eastern Europe region.
- Developed digital assets and communication materials for client-facing transformation projects.
- Supported production workflows using SAP tools and platforms.

Digital Assets Curator and Communication Expert

Jun 2024 – Oct 2024

SAP – Non-Commercial Licensing

Walldorf, Germany

- Managed digital asset curation and licensing processes for SAP communication projects.
- Ensured compliance with non-commercial licensing requirements and IP guidelines.
- Streamlined asset management workflows.

Content and Communication Expert

Aug 2023 – Jun 2024

SAP – Demand Management, Services Sales MEE @ MME Services Sales DemGen Walldorf, Germany

- Created and managed content for Services Sales initiatives across Middle and Eastern Europe.
- Supported demand generation activities through strategic communication planning.
- Collaborated with sales teams using Jira in Agile sprints.

CERTIFICATIONS / TRAINING

S/4HANA ABAP/CA Training

June 2025

- Completed intensive training on S/4HANA ABAP, mastering RESTful ABAP Programming (RAP), Core Data Services (CDS), and AMDP.
- Gained proficiency in ABAP Development Tools (ADT) in Eclipse for cloud-ready applications.
- Built custom ABAP applications using Object-Oriented Programming principles.
- Implemented error handling, debugging techniques, and code optimization.

SAP Analytics Cloud (SAC): Demonstrated proficiency via project portfolio.
