Availability: From Mar 2026, 20 hrs/week during semester, full-time during breaks.

Languages: English (fluent), German (B1 – actively improving towards B2/TestDaF) **Work authorization:**

Eligible to work as student in Germany

PROFILE / TARGET FOCUS

M.Sc. SAP Engineering & Analytics student (2nd semester) with 1.5+ years' experience at SAP Walldorf in Services Sales, Non-Commercial Licensing and Transformation Advisory, where I supported transformation initiatives, regional stakeholders and high-quality communication assets. My background spans business process management, change management, stakeholder communication, analytics and UX design (M.Des. Communication Design), which helps me connect IT topics with human and organizational needs.

I am building a focused profile at the intersection of IT transformation, business informatics and analytics, using SAP S/4HANA, SAP Analytics Cloud and SAP BTP to translate strategy into tangible outcomes. I am actively deepening my knowledge in change management and agile ways of working (Scrum, Kanban), user research and generative AI in enterprise workflows, while improving my German from B1 towards B2/TestDaF. I am seeking a working student role in transformation management, organizational development or a Transformation Management Office where I can contribute structured thinking, clear communication and a proactive, experimentation-friendly mindset.

KEY COMPETENCIES

Business Transformation & Change • Business Process Analysis • Organizational Development Context • Stakeholder Communication • Workshop / Session Support • Cross-Functional Collaboration • Agile Ways of Working (Scrum, Kanban) • Continuous Improvement Mindset • Enterprise Analytics & KPIs • Data Quality & Governance • Professional Content Creation • Structured Documentation

EDUCATION

Master of Science – SAP Engineering and Analytics Oct 2025 – Sep 2027 (Currently Enrolled)
Hochschule Fresenius, Heidelberg, Germany (SAP-aligned program)

Master of Design – Communication Design 2015 – 2018
MIT Institute of Design, Pune, India

Bachelor of Engineering – Computer Engineering 2010 – 2013
Ganpat University, India

SAP & TECHNICAL SKILLS (FOCUS AREAS)

Business & Transformation Context: Understanding of SAP ECC to S/4HANA transformation, RISE with SAP context and the link between IT strategy, processes and stakeholder behaviour; experience from Transformation Advisory Center MEE (IX Studio) and academic research on migration and UX adoption.

Analytics & Data: SAP Analytics Cloud (SAC) for stories, KPI dashboards, drilldowns and filters; data profiling and validation across multiple dimensions and regions; Python (Pandas, NumPy) for data cleaning, validation and automation; SQL for querying and data checks.

Communication & Collaboration: Creation of stakeholder-ready content (presentations, enablement decks, documentation); curation and structuring of digital assets; cross-functional communication with Services Sales, Licensing and Advisory; working in agile teams with Jira; basic workshop and session support.

SAP & Technical Foundation (supporting): SAP S/4HANA, SAP BTP, SAP Analytics Cloud,

SAP Fiori/UI5; ABAP basics (RAP, CDS, AMDP) from S/4HANA ABAP/CA training; JavaScript (ES6+), TypeScript; HTML5, CSS3; Git/GitHub, Eclipse ADT, SAP Business Application Studio, SAP Web IDE, VS Code; Jupyter Notebook; MS Office; Adobe Creative Suite, Figma.

PROJECTS (MOST RELEVANT)

SAC – End-to-End Sales Analytics Product

Jan 2026

SAP Analytics Cloud

Built a multi-page SAC story on 1,000+ sales records with executive KPIs and drilldowns by region, product and sales channel (online/offline). Designed overview, profitability and drilldown views and performed data profiling on 14 dimensions across 7 regions to ensure completeness and zero-error reporting. Implemented Linked Analysis and filters to reduce time-to-insight for managers and support data-driven commercial decisions.

Retail Sales Data Cleaning Automation Pipeline

Sep 2024 – Nov 2024

Python, Jupyter Notebook, Pandas

Developed an automated Python pipeline to clean and validate messy retail sales datasets, including type checks, missing value handling, duplicate removal and KPI recalculation with logging. Created test datasets and compared outputs against expected results to verify transformations and provide analysis-ready tables for BI tools.

SAP UI5 – Salary & HR Management and Data Visualization

Oct 2025 – Present

SAP UI5, JavaScript & Fiori Elements / github.com/ravalvarun-SAP

Developing SAP UI5 applications following Fiori 2.0 concepts for salary management, time tracking and HR analytics dashboards. Consumed OData services from SAP S/4HANA and focused on clear UX, input validation and responsive layouts, supporting reliable HR reporting and visualisation.

WORK EXPERIENCE – SAP (WALLDORF, GERMANY)

Communication & Production Specialist

Oct 2024 – Mar 2025

SAP – Transformation Advisory Center MEE @ Immersive Experience Studio (IX Studio)

Supported transformation advisory sessions for the MEE region by preparing high-quality digital assets and session materials. Coordinated feedback and change requests with advisory leads and technical teams, tracking updates and documenting key requirements and decisions so assets and experiences could be reused consistently. Contributed to consistent, high-quality communication supporting SAP's intelligent enterprise and transformation narratives.

Digital Assets Curator and Communication Expert

Jun 2024 – Oct 2024

SAP – Non-Commercial Licensing

Managed digital asset curation and non-commercial licensing checks for SAP communication and marketing projects. Verified assets against IP and usage guidelines, recorded approvals and kept information up to date to avoid inconsistencies. Structured asset libraries and status tracking to improve transparency and ease of use for Services Sales and Customer Success stakeholders.

Content and Communication Expert

Aug 2023 – Jun 2024

SAP – Demand Management, Services Sales MEE @ MME Services Sales DemGen

Created and maintained content for Services Sales initiatives across Middle and Eastern Europe, aligning material with sales goals and customer messaging. Worked in agile sprints using Jira to track tasks, dependencies and status across teams. Gathered feedback from sales and management, iterated on deliverables and ensured consistency and quality before distribution.

RESEARCH PAPERS (ACADEMIC)

"SAP Fiori 2.0 and SAPUI5: Enhancing Enterprise User Experience"

Jan 2026

Hochschule Fresenius | Master's Research Work

Analysed SAP's UX strategy, Fiori 2.0 design principles and SAPUI5 architecture, with a focus on usability,

consistency and responsive behaviour. Connected Fiori-based UX improvements to user productivity, adoption and perceived quality in enterprise environments.

"Migration from SAP ECC to SAP S/4HANA: Business Perspectives and Case Studies"

Jan 2026

Hochschule Fresenius | Master's Research Work

Investigated business drivers, risk mitigation and change management aspects of ECC-to-S/4HANA migrations. Related migration challenges and lessons learned to customer engagement, advisory services and the intelligent enterprise vision.

RESEARCH ACTIVITIES

SAP User Research – Joule AI Integration Study

Nov 2025 – Jan 2026

User Research Methodology Course / SAP Walldorf & Frankfurt

Participated in SAP events on SAP Joule AI assistant integration and advanced use cases. Conducted user interviews and observations under guidance from the SAP UX team and documented findings. Synthesised pain points and qualitative insights into structured summaries and recommendations for stakeholders.

CERTIFICATIONS / TRAINING

S/4HANA ABAP/CA Training

June 2025

Completed intensive training on S/4HANA ABAP, including RAP, CDS and AMDP. Gained proficiency in ABAP Development Tools (ADT) in Eclipse and learned modern S/4HANA extension concepts, debugging and optimisation techniques.

SAP Analytics Cloud (SAC)

Project-based

Proficiency demonstrated through an end-to-end SAC sales analytics product with validated KPIs, drilldowns and interactions.
